

One Week at Beautiful Bali Hai Villas Kauai, Hawaii

Even among the Hawaiian Islands, Kauai stands out for the natural beauty of its sculptured cliffs, cascading waterfalls, quiet lagoons and pristine beaches. Much of the island remains untouched by human development, and you can explore it by foot, plane or helicopter.

Mount Waialeale rises over 4,500 feet above the Pacific. Usually wrapped in mist, this peak is one of the wettest places on Earth.

Bali Hai Villas are nestled on a cliff near the challenging Makai golf course. You can look outward to the ocean and the mountains or inward to the cascading waterfalls that flow into the large landscaped swimming pool. It's a perfect setting for children as well as adults,

You'll be happy to discover you're just minutes away from Princeville, Kauai's leading resort community. There you'll find an abundance of fine restaurants, beaches, golf courses and much more.

Every detail has been considered in the design of the spacious villas, from the spa in the master bathroom to the fully equipped gourmet kitchen, you'll find comfort and luxury that perfectly complement your vacation in paradise.
